

JEWISH COMMUNITY CENTER

In 1994, the Indianapolis Jewish community embarked on a capital campaign to raise \$16 million for the development of a 40-acre cultural campus and Jewish Community Center (JCC). The renovation and expansion of the Jewish Community Center included five major building components: a fitness / wellness building, a cultural arts wing with full kitchen support, a multi-recreational building, an administrative office addition, and the expansion of the educational wing to provide child care. With the completion of the project, the JCC has become Indiana's flagship for Jewish education, recreation, and community outreach. The JCC and its campus reflect the importance of community within the Jewish faith and is the location for the only Holocaust memorial in the State. In addition to the renovation and expansion of the Jewish Community Center, RATIO was responsible for designing and implementing the Jewish Federation's campus comprehensive plan, and creating the landscape architecture for the Holocaust Memorial Garden.
