

# IRWIN ACADEMIC SERVICES CENTER

The Irwin Academic Center at the University of Illinois Urbana-Champaign offers the best in academic services to more than 600 student-athletes. In the summer of 2006, RATIO completed a new, \$4.6 million, 11,400 sq. ft., four-story addition to the centrally located Tutor Revival style structure.

The addition creates a more comfortable environment for student learning through new student resource areas. A presentation room, a multi-purpose room, individual tutoring and study rooms, and computer labs were all part of the addition. Along with these amenities, the addition also included building support areas such as administrative offices, a preparation kitchen and restrooms.
